PROFILE

Applied AI product and creator-operations builder with strong problem-modeling, product judgment, and technical communication skills. I turn an unclear idea into a defined workflow, then lead the UX, integrations, testing, issue triage, and release iteration needed to make it usable. I am direct about my scope: I write foundational Python while continuing to build depth; I use AI-assisted development for web implementation while owning the product decisions, configuration, validation, and reviews.

AI, PRODUCT & TECHNICAL STRENGTHS

Product direction and UX | AI workflow and prompt design | Research synthesis and output evaluation | Functional testing, issue triage, fix validation, and redeployment | Claude and Gemini API integration | Cloudflare Workers, Supabase, Voyage embeddings, Google OAuth, Gmail and YouTube APIs | DNS, DMARC / DKIM / SPF deliverability, Cloudflare Access | Python fundamentals | JavaScript / TypeScript and React exposure | Technical content and analytics | English and Farsi

SELECTED AI & PRODUCT WORK

Daryl / SheibaniHQ | Private AI Creator Operations Assistant | Ongoing

GasElite | Deployed Pre-Launch Fuel-Savings Platform | 2026

Hair Recovery Command Center | Offline-First PWA (Personal Daily Protocol Tracker) | 2026

RemoteFit | Remote Role Finder & Application Tracker | 2026

F800 Diagnostic Series | Python Learning & AI Integration | Model 001 + Model 002 | 2026

RELEVANT EXPERIENCE

@SheibaniOfficial | Content Creator & Channel Operator | Ongoing

- Research, script, produce, publish, and analyze consumer-technology content across long-form and short-form formats. Built an audience of 4,000+ subscribers and published 840+ videos with 91.8% average view retention (cited as "top 5% of all creators globally" in the vidIQ AI Coach channel audit reports); use audience signals, sponsorship outreach, and collaboration workflows to improve each release.

Independent Referral-Based Academic Tutor & Writing Support | 2015-Present

- Provide one-to-one academic and writing support; adapt explanations to the person in front of me, assess clarity and evidence, and turn feedback into an actionable next step.

Customer Service & Operations | The Home Depot, Macy's, The Vitamin Shoppe | 2021-2025

- Resolved high-volume customer issues, coordinated order and delivery follow-through, learned products quickly, documented next steps, and communicated calmly across teams.

EDUCATION & CREDENTIALS

California State University, Northridge - B.A. Child & Adolescent Development, Early Childhood option, expected December 2026.

Master of Science in Computer Science pathway - CSUN department-guided plan; target December 2028.

SoloLearn Python Developer course certificate (August 2026) | CPR / AED / First Aid valid through April 2028 | California BSIS Guard Card
